ISHITA DUTTA

AI/ML Enthusiast | Open-Source Enthusiast | CSE Undergraduate

duttaishita112@gmail.com | Kolkata, West Bengal | github.com/ishitadutta2 | linkedin.com/in/ishita-dutta2

CAREER OBJECTIVE

Second-year CSE student building AI-integrated, full-stack applications — from privacy-conscious browser tools to Flask/MongoDB backends powered by the Gemini API. Focused on clean architecture and testing discipline, with a strong interest in open-source collaboration through GirlScript Summer of Code. Seeking SDE and AI/ML engineering internships to apply this experience to real-world problems.

EDUCATION

Heritage Institute of Technology, Kolkata, West Bengal

Bachelor of Technology (B.Tech) in Computer Science & Engineering | Sep 2025 – Present

- CGPA: 8.9/10 (1st Year)

Barabhum High School, Purulia, West Bengal

Class XII — WBBSE | Mar 2022 – Mar 2024 | 82%

Barabazar Girls' High School, Purulia, West Bengal

Class X — WBBSE | Jan 2016 – Feb 2022 | 93%

CERTIFICATE COURSES

- IBM Machine Learning with Python — Coursera (Nov 2025 – Feb 2026)
- Python Coder Badge — Kaggle (Nov 2025)

PROJECTS

Shrinkly — Universal File Compressor *Jul 2026 – Aug 2026*

JavaScript | Canvas & File APIs | pdf.js | JSZip | Live: ishitadutta2.github.io/SHRINKLY | GitHub: github.com/ishitadutta2/SHRINKLY

- Built a browser-only, privacy-first file compressor for images, PDFs, and Office docs — all compression runs client-side with zero server uploads; deployed live on GitHub Pages
- Found and fixed a reproducible XSS vulnerability during a security review pass; covered the codebase with a 43-test jsdom suite, all passing
- Engineered Smart Compression (auto-suggested settings) and Target File Size (binary-search to hit a size goal), plus batch compression with one-click zip download

MoodFlix-AI *May 2026 – Jul 2026*

Python | Flask | MongoDB | Gemini API | Docker | GitHub: github.com/ishitadutta2/MoodFlix-AI

- Built a full-stack mood-based movie/music recommendation platform integrating the Gemini API, with a layered routes/services/repositories architecture and an automated pytest suite run via GitHub Actions CI on every push
- Developed authentication flows with email verification, password reset, and account lockout, plus real-time streaming chat responses

NutriWizard *May 2026 – Aug 2026*

Python | Flask | SQLite | Google OAuth | GitHub: github.com/ishitadutta2/NutriWizard

- Built a nutrition and habit-tracking web app computing personalized calorie and protein targets using the Mifflin-St Jeor equation, with meal, water, and weight logging
- Gamified the experience with daily missions, unlockable achievements, and a house-based leaderboard to drive engagement
- Integrated Google OAuth for authentication and a pluggable AI food-image recognition pipeline for calorie estimation

SKILLS

- Programming Languages: Python, C, JavaScript
- Web Technologies: HTML5, CSS3, Flask, REST APIs
- Databases: MongoDB, SQLite
- AI/ML: Machine Learning Fundamentals, Prompt Engineering, Gemini API Integration
- Testing: pytest, jsdom, Test Coverage Analysis
- UI/UX Design: Responsive Web Design, User Interface (UI) Design, User Experience (UX) Design
- Tools & Platforms: Git, GitHub, GitHub Pages, Docker, Visual Studio Code

EXPERIENCE

Open Source Contributor — GirlScript Summer of Code (GSSoC'26) *May 2026 – July 2026*

- Contributed to the Checkora open-source project, resolving 2 issues and implementing improvements through Git and GitHub
- Gained hands-on experience with issue tracking, branching, pull requests, code reviews, and collaborative software development

ADDITIONAL INFORMATION

- Top 20 Finalist, MUSE, and Top 50 Finalist, Ideatex — Session Zero 2026, Google Developer Group on Campus, HIT
- Participated in additional hackathons, coding competitions, and quiz competitions; attended AI/software workshops
- Solved 130+ DSA problems on LeetCode
- Languages Known: English, Bengali, Hindi
